

Royal Flush Triumph by Creative Artists - Video - DOWNLOAD

An incredible and easy Triumph routine with an ending that you won't believe!

Two spectators select cards - one person holds onto theirs, while the other places their chosen card back in the deck. Through a series of fair moves, the deck is shuffled with some cards clearly face up, and others face down. The deck is spread, and **ONLY ONE** card is now face up - the spectator's card that had been inserted back into the deck! The deck is closed up and spread again - now a Royal Flush is revealed, in order, as the only face up cards in the deck.

But wait! The card held by the first spectator is now shown - it is part of the Royal Flush and there is a space where that exact card needs to be inserted. **WOW!**
