

The Spell by Sandro Loporcaro (Amazo) - Video - DOWNLOAD

Here, Amazo presents two new effects:

- **Bosco Tribute:** A lemon is sliced and some of its juice is squeezed into a glass. Nevertheless, it is then magically restored! Everything can be examined before and after.

- **Modern Blackboard:** A Transparent plate serves as a blackboard. On it, the magician writes "Your Card." A real card is chosen by the spectator, and the spectator writes the name of their card on the plate, which is then wrapped in folded newspaper. The card subsequently VANISHES from deck. Not only that, but the transparent plate no longer contains the name of the chosen card - the writing has vanished as well!

Download the video and learn how to perform these miracles.
