

Twins by David Luu - Video - DOWNLOAD

An easy, yet baffling, card trick for close-up and street magic!

Give a spectator a shuffled deck and hand them a card whose back has a different color. Ask them to place this card somewhere in the middle of the deck. When the deck is spread, it is revealed that they have magically placed the odd-backed card directly on top of its identical twin - they match perfectly!

Works 100% of the time!

Download the video and fry your audience's minds!
