

Restore Napkin by Yu Ho Jin - Video - DOWNLOAD

The Ultimate Torn and Restored Napkin!

A version of this classic effect that you will want to do!

Effect: Show a napkin to the spectator, allowing them to examine it. Tear a portion from its center, making what should be a small hole. Then do it again, making the hole larger. And one more time, tearing a much larger portion, making what should ultimately be a huge hole in the center. When you unfold the napkin, it is magically restored - no hole at all! Looks incredible!

Extremely visual, extremely powerful, and best of all, it is very easy to do!
