

Slow Motion by Yu Ho Jin - Video - DOWNLOAD

The ability to slow down time!

Borrow a coin and place it on your hand. You stand it up and let it fall a few times. THEN you announce that you will do the impossible by doing it again - but this time, you'll attempt to slow down time.

Your spectators watch closely as the coin falls down in slow motion!

Simple to do, yet spectators are amazed!

Download the video to learn this effect.
