In 2007, card flourishes were very cool and began trending. D&D is a flourish master and first introduced the card flourish. A card flourish is the art of manipulating the cards by shaping them into a beautiful movement.

The tutorial is divided into 2 variations: CUT and DISPLAY.

- **CUT** is a piece of the deck that forms a beautiful motion element
- **DISPLAY** is the completion of CUTTING to form a beautiful card arrangement in your hands.

The game is still a sibling of the magic arts because it uses a stack of cards.

I am a magician and I can also make card flourishes. Doesn't that sound cool?

You can also do this!

Here I present to you my work with card flourishes, which I have named:

LINK (cardistry project)

There are 12 UNIQUE MOVE CARD FLOURISHES:

- Fath
- Sybicycle
- Ghocylinder
- Cavanda
- L-Sybil
- Two Door
- Ken
- Bont
- Clever
- Dunes
- Marcy March
- Turnava

Card Flourishes will NEVER DIE - they are here to stay!

Happy learning and do not give up easily.
