

Takumi Takahashi Teaches Card Magic - Takumi's Triumph - Video - DOWNLOAD

Takumi's stunning take on the Triumph plot. The deck is shuffled, and a random card is chosen and placed back into the deck. It is then shuffled with half the cards face up, and half the cards face down. Just like magic, the cards now all turn face down except for the one chosen card! But there is more... now the entire deck is separated into red and black cards even though they were shuffled at the beginning!
