Master Coin Manipulator and Sleight of hand artist, Roy Eidem, is without any doubt one of the top coin workers within the arcane arts. Roy's coin work is more than just sleight of hand - and his thinking goes way beyond the use of traditional methods. His psychology, employed with his flawless coin work, creates the appearance of real magic. This gentleman makes his work look totally effortless, with a touch of graceful moves. His strongest tool that he uses with his spectators is his charm and gentlemanly approach, placing his audience in a state of awe.
