

At The Table Live Kimchi September 5, 2018 - Video - DOWNLOAD

When people talk about the best coin magician in Korea, they talk about **Kimchi**. When first starting out, he showcased his skills at the biggest magic convention in Korea, BIMF. As the go-to coin magician, **Kimchi** brings his unique style of magic to the **At The Table** lecture series. His magic is not just visual on camera, but in close-up as well. Join us and be mesmerized by **Kimchi** for this **At The Table** lecture. In it, you'll learn:

Spellbound: A one-dollar coin and a Chinese coin change places in just 5 simple moves.

The Ring, The Coin, and The Coin Purse: First there's a ring in the coin purse, then instantly when reopened, a coin has taken its place. A simple yet elegant back and forth between a ring and a coin.

4 Coin Vanishing: 4 coins are held in the left hand. In just 4 moves, the coins disappear, and all 4 coins appear on top of your left arm.

Standing Sponge Ball: Make a sponge ball disappear, appear and multiply.

3 Coins and a Purse Frame: A one-dollar coin appears out of a purse frame and disappears. Once the one-dollar coin disappears, a Chinese coin and then a penny appear one by one, then disappear again. For the finale, all 3 coins reappear out of an invisible coin purse!

One Card and 8 Coins: One card and one hand are used to produce 4 coins on a table pad. The magician makes the 4 coins disappear with the same card and then makes 8 coins appear, using no gimmicks.
