

The Signal by Emma Wooding - eBook - DOWNLOAD

From the creator of the Impromptu Invisible Deck, Emma Wooding brings you **The Signal**.

The Signal is a detailed routine where the spectator thinks of a dream. After giving a brief reading, the performer then begins to divine the dream by giving specific details that no one other than the spectator would know. After giving specific details, the performer divines the dream.

In this document I cover:

- The Basic Routine
- The Lines Principle
- The Scroll Principle
- Wrap Lines
- How to give a quick and simple reading

Whether you are a pro that performs back-to-back gigs or a beginner who just performs for their family, you are going to love this routine. **The Signal** is 100% sure fire, easy to do, and fun. It fits easily into your wallet, uses no odd anagrams, can be performed surrounded in any scenario, with no DR or NW.

"Imagine being able to sit down with someone and, after a few short moments, describe their dreams for them in detail and not only that, interpret those dreams so they make sense to the volunteer? This is the gift that Emma gives you in this remarkable release."

- **Paul Voodini**

"Emma, I now have this trick in my wallet for those 'show me a trick' moments. I really like the plot, and the method works! Nice."

- **Olivier Boës (creator of 10S Star Sign Divination)**
