After 2 years in the making, Okadino is now ready to share his latest creation.

**X-Ring** is visual ring magic at its finest! You can do 3 stunning effects all with one gimmick! Imagine -- first you show your hands empty, and in a blink of an eye a ring magically appears on your finger. With a wave, the ring **PENETRATES** from one of your fingers to another! When your audience thinks that the effect is over, you further astonish them by **VANISHING** the ring in front of their eyes!
