

## **The Vault - Linking Cigarettes by Akira Fujii - Video - DOWNLOAD**

Looks as astonishingly real as it can get!

The performer holds a borrowed cigarette (or a small twig, or a rolled-up bill) in each hand by the thumb and forefinger. The two objects pass through each other like REAL MAGIC! No switches, nothing is added or taken away. A super visual penetration of two objects! What you see on the demo video is how it looks live! Perform anywhere!

- No threads!
- No magnets!
- No sticky tape!
- No wax!
- No camera tricks or edits!
