

Secrets of Spiritual Hypnosis & Past Life Regressions for Psychic Entertainers by Jonathan Royle - Mixed Media - DOWNLOAD

Filmed on a Television broadcast quality camera at Royle's Live Training seminar on Saturday 13th October 2018 in Chesterfield, England at Future House Therapy Centre, you will become a fly on the wall during approximately five hours of truly explosive and eye-opening video footage.

By way of the video footage, together with the audio files of the event which are also accompanied by a copy of Royle's Book, "*Seance Secrets, Ghost Hunting Tricks & Paranormal Investigation Techniques*," you will witness the demonstration of and also learn the Secrets behind...

The Magic of Crystals

Royle reveals an important seeming ritualistic process using a Crystal or Gem Stone designed so the audience feels protected from any Spirits that may be manifested during the experiments that follow. In truth, this is really designed to massively amplify everyone's level of suggestibility and thus heighten their reactions and experience of all that follows.

Past Life Regressions Made Easy

An easy-to-learn, use and master technique for giving entertaining demonstrations of PLR = Past Life Regression. You are shown how you can conduct an entire evening's entertainment using this approach alone.

Future Life Progressions & Proof they Work

Not only will you be able to give demonstrations of FLP = Future Life Progression, but also you will also be able to provide undeniable proof to the participants and the audience that FLP is real and has genuinely worked.

Astral Projection

Help an audience member take their mind on a trip out of the room and all the way into the house of an audience member who confirms that the onstage volunteer is indeed correctly describing details they could not have known about

the inside of their home!

Enhancing People's Psychic Powers

Using the techniques of Creative Visualisation taught within this package, you can apparently rapidly enhance people's Psychic Ability to the point where they are able to make connections with audience members and reveal things to them they could not possibly have known.

Out of Body Experiences

Using just an ordinary, everyday hand mirror, this technique will enable you will to give people the genuine feeling that they have managed to make their Soul, Spirit and/or Mind leave their body. They then really have the experience of watching themselves as a "3rd Party" from a distance, and see themselves staring into a mirror as well as seeing the reflection stare back.

Physical Contact From The Spirit World

You are taught two ways of enabling a volunteer to feel physical contact from a deceased relative in the Spirit World. One of these methods of so called "Psychokinetic Touches" style routines does not involve you ever secretly touching them. No special chairs or electronic devices of any kind are ever used and, yet, they will swear blind they have been touched (or kissed if you desire) as they will genuinely have felt this, despite your never having been near them.

Automatic Writing Made Easy

Royle's Proven method for giving an audience member a large pad and a pen with which they conduct an experiment in automatic writing. It concludes with them having written the name of a deceased relative of either themselves or another audience member with whom they have connected. This can easily be presented as them channeling a spirit.

Is There Any-Body There?

You will learn techniques of how and why Pendulums, Ouija Boards and other Spirit Phenomenon such as Table Lifting and Moving actually work and how to manifest such enigmas in your performances.

Searching for Evidence

Group Ghost Hunting & Paranormal Investigation nights can be a hugely profitable endeavor. Royle reveals tricks of the trade he has used to ensure that people have truly memorable, spooky experiences at such events he has presented over the years.

Secrets of Spiritual Hypnosis

Many other Secrets of Spiritual Hypnosis & New Age Style NLP are revealed and insights given into how easily people's Habits, Addictions, Fears and Phobias in life can easily be overcome using such knowledge and techniques.

The Deeper You Go, The Better You Feel

You will also learn Several Suggestibility Tests, along with a couple of extremely effective and hugely reliable rapid Hypnotic Induction techniques for which you will be taught numerous uses. These include enabling audience members to make contact with their Native American Spiritual Power Animal, their Spirit Guide, an Angel, a Deceased Loved One, or indeed with a Monster or even the Devil if that is their (and your) desire.

How Mediums Speak With The Dead

During the course of the training video, Royle at times gets "messages" and communications from the Spirit World that are confirmed by audience members that these make sense to them. He then, as events unfold, explains the tricks of the trade used to make such apparently accurate things occur.
