

All Back Aces by Prasanth Edamana - Video - DOWNLOAD

A powerful packet trick that ends clean and is examinable at the end.

First, 5 cards have no faces - all backs! Then they turn into 5 Ace of Spades. One is placed into your pocket. Finally, they turn into 4 Aces of all different suits - looks amazing!

All Back Aces by Prasanth Edamana is derived from Paul Gordon's wonderful trick called "Spectrum" from his Gold Dust Series. **All Back Aces** use a different sleight and has a different ending, along with logical patter for all the actions.

Perfect routine for your table-hopping or walk-around routine.
