

White Out by Chris Annable - Video - DOWNLOAD

White Out is a simple routine by Chris Annable - yet, this effect provides a powerful visual punch!

A colored deck is removed from the box. One card is selected, signed and placed back into the center of the deck. With a simple movement, the entire deck turns white, except for a single card. That card is the signed selection.

It's easy to set up, simple to execute and takes seconds to reset. The deck is clean at the end, ready for full inspection and further magic.

Download the video and learn this magical routine!
