

## Clipnotize by Chris Annable - Video - DOWNLOAD

Three great card routines that incorporate the use of a standard paperclip. This 40 minute multi-angle instructional video will teach you the following magic:

**Clip Fishing:** A selected card is lost until a spectator finds it by using a paperclip to fish into the deck.

**Clip Sandwich:** A 3 phase routine where a selected card appears between 2 Jokers that are clipped together.

**Clip Monte:** A classic 3 phase Monte routine that uses the paperclip as both a convincer and a method of deception.

Great as standalone performances or add-ons to your other card routines.
