

Parabox by Chris Annable - Video - DOWNLOAD

Imagine the following:

A card vanishes from the deck and reappears in the card box.

A selection is placed in the box, only to have the entire scenario instantly reversed. The box is empty and that same card is now back in the deck.

A prediction card can be seen and heard in the box during an entire mentalism routine.

...And for all of these effects, the card is randomly chosen and can be signed.

Included in this high definition download are detailed instructions on how to set it up, how to execute the core effects and a full, 3-phase routine called "**Parabox Rewind**."

The card tuck box remains unaltered, and the cleanup and reset of the trick is fast and simple.

You'll love performing it, and your audience will be astounded!
