In this lecture you'll learn:

Bending Nail: Bend a nail right in front of your spectator's eyes.

Bending Coin: An amazing routine where the spectator watches a coin bend right in front of them.

Ripping Coin: Show off your strength by ripping a coin down the center.

Mental Cash: A "which hand" routine where the spectator finds the bill you have hidden in one of your hands, time after time. Includes a kicker ending where you have predicted exactly how many times they found the bill, written on the bill that was used.

Thumb Tack Balloon: A fun routine where you blow up a thumb tack like a balloon.

Bending and Twisting Stirrers: Bend and twist plastic restaurant stirrers.

S.P.Y.: Use something that everyone already owns to create this miracle where you can predict which card the spectator has marked with an X.

Zorro: Learn how to use The Zorro Pass to turn a spectator's card face up inside the deck for an out of this world Triumph.

Card to Impossible Location: Take the chosen spectator's card and put it back into the deck face up. Miraculously, the card vanishes from the deck and appears under where the spectator is sitting.
