

Stubborn Card by Pavatzoglou Alexander - Video - DOWNLOAD

What if you could make a freely chosen card rise from your palm and be suspended from your fingertip?

You can do it!!!

Tell spectators you are going to push the card into your palm. But the card is **STUBBORN** - when your finger lifts up, the card rises and stays under your finger!

Can also be done with any BORROWED deck!!!

Download the video and learn this awesome effect!
