

The Vault - No Smoking Zone by Nathan Kranzo - Video - DOWNLOAD

It seems that just about no matter where you go, you can't smoke a cigarette. Why not turn this into a great moment of amazing magic? Just when they tell you not to smoke... your cigarette in your mouth changes INTO A STICK OF CHEWING GUM.

The visual change is stunning and magical. ALL IN SHORT SLEEVES.

You can visually change a cigarette in your mouth into...

- a stick of chewing gum.
- an entire pack of chewing gum.
- a lollipop or sucker.
- a breath mint or an entire roll of mints.
- and so much more!!!

Visually change a cigarette being held in your lips into almost any small object.

OR... JUST MAKE THE CIGARETTE VANISH FROM YOUR LIPS.

You don't ever have to actually smoke a cigarette to do this effect.

This is strong situational magic that is the perfect offbeat miracle. Fits in your pocket or cigarette pack and you can carry it with you at all times.
