Coin Leap

Vanish and appearance of three coins.

This routine represents a large body of Chiharu's research into coin magic.

Spellbound

This is a fun Spellbound with rhythmical changes.

Various changes and transfers make this routine pleasing to watch, even from behind.

One Coin Routine

This One Coin Routine goes about as far as you can with productions, vanishes, and transfers using just a single coin.

It's the most skill-intensive routine on this video.

Inertia Palm Transfer

Inertia Retention Vanish/Inertia Spider Vanish/Inertia One Hand Vanish/Inertia Toss Vanish/Inertia Click Pass

The first technique represents a major departure from conventional palming techniques. It's a coin transfer that looks unbelievable, even from behind.

While this move ranks high on the difficulty scale, it pays back handsomely in practicality.

The video explains the Inertia Palm Transfer and a slew of other useful sleights derived from this basic technique.

Ellen Baker Production

Ellen Baker Vanish/Ellen Baker Shuttle Pass

Chiharu explains a production, vanish and a shuttle pass that starts from a position that he calls the Ellen Baker Grip.

This technique makes it relatively easy to show both hands empty.

Fingertip Vanish

As the name implies, a coin held at your left fingertips vanishes visually as your right hand makes a magical gesture.

TA Vanish

A coin held in the left hand vanishes, after which both hands can be shown empty.
