Every four years, we like to publish a collection of all the great magic that has appeared during the period in *Magicseen's* **Masterclass** section. From the issues which appeared in volumes 9-12, we offer you 51 effects and ideas from such well known and respected performers as Andy Nyman, David Regal, Chris Rawlins, Boris Wild, Mel Mellers, Pit Hartling, John Bannon, Vincent Hedan, Thomas Fraps, Dan Garrett, Anthony Owen and many others.

The eBook contains 100 pages, with many of the effects featuring color photo illustrations. We may not publish a huge number of tricks in *Magicseen*, but we like to think that the ones that do make the cut are worthy of your attention.
