

TRIPLE IMPACT! by Paul A. Lelekis - Mixed Media - DOWNLOAD

Paul A. Lelekis provides a trio of titillating tricks for close-up or cabaret. The bonus effect was contributed by the amazing Scottish performer, Ronnie Wood - this effect will blow your spectators away!

All three effects are explained in full with photographs and videos for ease of learning.

Wait until you see **The Ultimate Poker Demo!** It is IMPROMPTU and you can use a borrowed deck - ***watch the look on your spectators' faces!***

This routine will become your absolute favorite! These wonderful effects are for magicians who not only want to "up" their game, but also provide their spectators with some magic that has a strong "gambling theme"!

Wait until you see the **two videos** provided for false dealing... something you will RARELY ever see, for any real instruction!

(Two of these effects are completely impromptu and the third has only a minimal set up.)

1)The Ultimate Poker Demo! This 8-minute routine is a fantastic closer - or if someone hands you a deck of cards for you to do a trick, you will "FRY" their brains with this spectacular IMPROMPTU routine!

This routine will require a little bit of work... but I GUARANTEE your spectators will be absolutely ***fried!***

Paul teaches how to adapt the many included revelations to your own skill level - but whatever that might be, this routine will make you appear to be a master of the *pasteboards in the eyes of your spectators! Guaranteed!*

The **Ultimate Poker Demo** is a whirlwind of effects that "teaches" your spectators how to deal seconds, bottoms and centers - then you deal yourself the four Aces... and THEN, deal *another round*, giving **your skill** a Royal Flush in Spades! And, '**No!**'... there are no secret partners or "skills" used!

*Learn from Paul's experience as a professional **underground** gambler.*

2) INSIDE-OUT ACES is Paul's terrific take on classic routines by Nate Leipzig and Dr. Jacob Daley. This routine will make everyone's mouths hang open... then they are hit right between the eyes with an impossible finish!

The included patter is very clever and works **beautifully** for the final, easy-to-do final revelation... this routine is actually FUN to perform!

BONUS!

3) Another Card to Wallet is an amazing, seemingly impossible Card to Wallet with quite a stream of effects by my good friend, Scottish magician, Ronnie Wood! This is another excellent closer! You will love this superbly constructed routine!
