

## **DOUBLE MATRIX by Paul A. Lelekis - Mixed Media - DOWNLOAD**

This e-book presents two amazing, 4-coin Matrix routines - with many color photos of Paul performing and explaining some "key" sleights...

**A 2-Card/4 Coin Matrix** and a **4-Card/4-Coin Matrix Reversal**. (See descriptions below)

**Note:** (These two matrices can be seamlessly combined with two of my other listed e-books, "Coins Thru Table" and "Double Decker" for a beautiful combined routine!)

### **PLUS...TWO BONUS VIDEOS:**

- 1) The Marlo Spider Vanish**
- 2) The Himber-Sankey False Count**

The two included coin/card Matrices are designed to be "played" together, back-to-back, for a beautiful sequence that will thrill your spectators. This is professional magic at its best!

These routines are real "eye-candy" and **the patter is hilarious!**

The first routine will baffle your spectators because you use only 2 cards for cover... but you make the coins travel to the leader position anyway! Great funny patter here!

The second Matrix routine is a reverse matrix that uses 4 cards and 4 coins - they all gather to the leader and then **BAM...** they are **all instantly found back at each corner...** impossible!

These two effects will make your spectators' heads swim...and they are actually easy to do!

Learn some very cool sleights from Marlo, Schneider, Cummins, Sankey, as well as myself.
