A POKER DEAL & an EXPOSÉ of TILT with a contribution by Jon Racherbaumer

Including the *real deal* on "The Trick That Fooled Houdini"

"When I met Paul many years ago I was struck by his intensity. He was deeply interested in the potential 'horse-power' of strong or subtle methods. He sought ideas that drive magic past thresholds of self-satisfaction, and whenever he performs you detect this energy. Paul embodies the spirit of the hard-core professional. He never stops mulling over ways to vary, tweak, modify, and perhaps improve every aspect of what he does. I am pleased to call him my friend."

MALLEABLE POKER DEAL - An amazing 3-part routine with a Poker Deal that will DAZZLE everyone - *including magicians!* This routine can be performed by almost *anyone*.

FIRST, a five-handed game of poker is dealt and the dealer displays that he can deal bottoms, seconds, and center deals at will...he then deals himself the four Tens!

SECOND, the dealer asks a spectator, at which hand is the **shill** supposedly sitting, the 1st, 2nd, 3rd or 4th hand...the 5th is the dealer's hand. When the spectator calls which hand of the four, the entertainer *immediately* deals out a Royal Flush to that hand...and even CALLS *which* SUIT, BEFORE he deals! This is one of the most amazing aspects of ANY Poker routine!

THIRD, the Magician says that the Deuces are wild! He deals out a third round of cards and deals himself the FOUR ACES and a DEUCE! This hand even beats a Royal Flush!

This Poker Deal is VERY easy to do... no sleights needed - in fact, even a rank amateur can perform this!

For those who are a little more advanced - you will now have the opportunity to

appear to be a REAL Card Mechanic!

The fun and amazement factor is what makes this beautiful routine, so incredible to your spectators!
