"WTF, some witchcraft?? I can't figure it out. Amazing!!"

- **Mario Tarasini** (creator of 'Card Flex' and 'QuickSilver')

"Hi friends! My name is Doan and I want to bring you some new effects with rubber bands in this download. Imagine you just have one rubber band and then you visually produce a new one from it. Of course, in front of your spectator's eyes. Or, you can also visually do a very cool rubber band color change effect. What're you waiting for? Bandual is for you today!"
