Make the coin fly up *two or three times higher!* It's easy..."Smoke" your buddies at the next meeting!

EFFECTS:

- **ESP technique** for an *impromptu reading* at any gathering, that is not only easy to do - but is also 100%! This may be the strongest thing you do...ever!

- **Dubble Bubble Trubble** is an amazing torn & restored gum wrapper effect that starts clean and ends clean!

- **Torn & Restored 'Boo-Boo'** - Tear a large piece of paper Up...but you "accidentally" drop one of the pieces on the floor! OH NO! The kids are gonna go NUTS! But when the paper DOES restore, it ALL restores back, except for that one piece that fell to the floor - and it matches up perfectly! This is a blast! Watch the kids SCREAM that you messed up!

- **Reversal of Fortune** - A Marlo idea, coupled with a technique by Paul that will bring your Assemblies to a new height! This sleight (***with a complete Assembly included!***), will bring many new ideas for 4 Ace tricks, to mind! Make your assemblies and transpositions even more "impossible"!

- **Impromptu Pellet Mental Epic** - An easy method of performing this classic of magic that is even more deceptive than the original and easier to perform! Mentalism at its finest!

- **'Tricky' Prediction** - The 'construction' of this effect allows the magician to "switch a card" WHILE your hands are being "burned"! The magician 'goofs up' the trick...but then he makes good! THIS transposition is a STUNNER!

A Performance Teach-In!

Paul actually uses four of the included tricks to teach every aspect of *performance*, why certain actions are better to use, and why they work. Learn how to use these techniques for "cleaning up" many of your own routines that you use now, and make your performances as smooth as silk!
