

Severance by Watkins - Video - DOWNLOAD

Severance - A method for 'instant pre-show' and for making billets invisible. A way to apparently reveal names, dates, PIN codes, and more, without them ever seemingly being written down.

Imagine revealing nearly anything out of the blue and delivering a real "kick in the teeth" reaction from your audiences! It looks so good and fair that you'll swear it's preshow...

But it isn't.

Severance is the ultimate solution to harvesting information seamlessly. It blends language; allowing you to create truly stunning and fooling effects!

Unlock your spectators' hidden secrets right under everyone's noses today with **Severance**.

Download the video and start learning.
