

Noah Control by SaysevenT - Video - DOWNLOAD

Here's a quick transfer -- control a card selection to the TOP or BOTTOM of the deck!

As a magician, you must know the importance of timing in order to control a card selection.

Let me introduce you to another way to control a card selection called the "**Noah Control**." This is specially designed to enable you to control a card selection with quick transfer either to the TOP or BOTTOM of the deck.

After learning this control, you'll be able to design many routines for both LIVE performances and those recorded on camera.

NO HOLDING A BREAK, IMPROMPTU, PURE SLEIGHT OF HAND.

In the demo and in the video download, you will see 3 modern controls:

- Control a card selection to the BOTTOM
- Control a card selection to the TOP
- Bonus Routines (card change)

Download the video and learn the "**Noah Control**" now!
