The most meaningful and CLEAN out of this world to date!

Some random words are written on the faces of some red and blue slips of paper. You attempt an experiment with the written words and the colored papers.

You ask your spectators, to choose between words. Words that describe the things people may want in life like money, happiness etc.

They make all the choices of which words they get. At the end it is shown that they only got the words that they were meant to get all along. The words are turned over to reveal that they have been cleanly separated into the red cards and the blue cards.

NO MOVES, NO SWITCHING PILES, THEY PICK WHICH WORD GOES TO WHICH PILE AND YOU END COMPLETELY CLEAN WITH EXAMINABLE PAPER. A NEVER BEFORE SEEN DIABOLICAL METHOD.

Takes two minutes to prepare at home.
