

Safe Shows During Covid-19 Pandemic by Devin Knight - eBook - DOWNLOAD

The definitive work on performing during the COVID-19 pandemic. Right now, most of the world is on lock-down. However, some areas will soon be relaxing these restrictions. What that means is that people will be able to once again meet in small groups from 25 to 50 people, provided they follow the guidelines suggested by the various governments. This means that people will once again be allowed to have small parties. As time goes on, larger groups will be allowed as long as social distancing is practiced.

Are you ready for this time? Most magicians and hypnotists have had all their bookings cancelled or postponed: however, there is a chance to salvage some of these dates and book some new ones when you tell your clients you can perform a show that meets the governmental guidelines that protect both the audience and you! Believe it or not, you really can!

This PDF will show you how to perform magic shows that protect both you and the audience. Not just ideas, but real world techniques that are based on medical and scientific facts. You will have to rethink the entire way you do shows and this book shows you how to do it safely.

You will learn what tricks you can safely do and the ones that you don't do under any circumstance. This covers the entire gambit from masks to audience placement. Things you may not have thought of.

I have spent much time discussing this problem with other performers and the information in this PDF will help you design a show that people will book during the relaxing of the shutdowns. Mothers will be eager to book birthday parties that they couldn't before, provided you can show them they can do it and still keep the audience safe.

I even show you a safe way to present hypnosis shows. Really. Many hypnotists thought their careers were over for now. I did too, at first. However, after considerable thought I came up with a way to do hypnosis shows and still keep the volunteers safe. This is eye-opening material. I already have schedule hypnosis shows after the shut-down is relaxed in the next few weeks because I showed the clients how I could do it and still protect the audience using government guidelines.

You don't have to wait for a vaccine to start doing shows again. All you have to do is change the way you do shows. This PDF shows you how.

This PDF covers:

- PARTIES
- BALLOON TWISTERS
- CLOSE UP WORKERS
- MENTALISTS
- HYPNOTISTS

Yes, all these types of performances can be safely done, once you know how. Your performing career doesn't have to end for now; all you need is to do change your show and the way you perform.

This PDF doesn't deal with ZOOM or internet shows, it shows you how to safely perform in front of live audiences in a way that protects both you and the audience. This is information you need.

DISCLAIMER: Although the information in this PDF is based on current medical and scientific facts, nobody can 100% guarantee you will not contract COVID-19 no matter what precautions you take. There is always that possibility no matter how safe you try to be. You could contract it from buying groceries and while not doing shows. Therefore you use this information at your own risk. Neither the author nor distributor of this PDF is responsible if you contract the virus.
