

Picture Perfect Remote Viewing & The Possessed Card by Brian Lewis - Video - DOWNLOAD

Picture Perfect Remote Viewing

"A set of photographs of 'Remote Viewing Target Sites' are displayed and shown to be all different, they are then mixed and placed in front of the spectator. The performer turns their back and the spectator is asked to look at any one of the photographs and imagine themselves at that location.

Slowly, the performer reveals images and impressions of the target site and finishes by naming the correct location."

The Possessed Card

"A freely chosen card slowly rotates in the center of the table and is then handed out for inspection."
