

## Stretch by Mario Tarasini - Video - DOWNLOAD

Mario Tarasini presents another astonishing hole in a card effect for social media.

Effect:

The magician shows a card with a hole in it. He grabs the hole and stretches it! After a moment the hole morphs back to its original shape!

But that is not all!

The magician slowly peels the hole from the card - the hole becomes a sticker and the card is solid.

Both sides of the card can be shown. The hole just disappeared...

Additional supplies may be needed in order to perform the effect.
