

## **AFFORDABLE REMOTE CONTROL MUSIC SYSTEMS FOR MAGICIANS, MENTALISTS, HYPNOTISTS & ENTERTAINERS by Jonathan Royle - eBook - DOWNLOAD**

Within this instant download package you will find a 45 minutes long instructional video which is accompanied by 3 informational PDF booklets, which between them will help you to solve your Show Music & Sound System equipment needs both easily and also incredibly affordably.

The video explains how for as little of an investment, you could put together an Infra Red Remote Control MP3 Music System to play your show music through.

This system being such that you can tap in any number from 1 through to 99 (or above) and instantly have that particular track number play.

Of course you can also Pause the music, increase and decrease the volume as well as being able to jump to the next and previous tracks among other functions these affordable remote control systems can provide for you.

We also discuss recommended PA Systems, Wireless Radio Microphones and other Remote Control Music playing systems including those that have inbuilt functions making them even more ideal for certain types of Entertainment Performer.

And of course we discuss Bluetooth remote control music systems for those venues where Infa Red Remote Control's may not be ideal.

For the tiny cost, anyone who is considering or about to invest in their own Music Playing Device and/or PA System would be wise to take a close look at this package which also includes information on Electrical Safety for Entertainers.
