

Thug Melt by Mario Tarasini - Video - DOWNLOAD

Im very excited to present my version of the most popular trick on Instagram.

The trick can be done as one effect or like phase two combined with a melting card through card.

This trick is very underground and is used only by the best magicians.

Effect:

Take two cards, and one of the cards will melt through another side by side...

No threads
No magnets
No glue

You will make the gimmick in a couple of seconds.
