

Touchless by Prasanth Edamana - Video - DOWNLOAD

Just Imagine finding a thought of card from the deck thoroughly shuffled by the spectator without you ever touching them.

This is to fool the most annoying spectator who always wants to shuffle the deck as soon as they see it.

- It is hands-off
- It uses a regular deck of cards
- It is easy
- It works every time

You will be able to do it as soon as you watch the explanation video.

Alternate quick handling also provided.
