

## **Strange Cards by Mario Tarasini - Video - DOWNLOAD**

This is a series of tricks I have created in 2 years.

In the file you will find 4 tricks that are compatible with each other.

### **Linkero**

Effect:

There has never been an easier or more deceptive card link.

It is the most practical linking card effect in existence.

For the effect you will only need two cards and nothing else!

### **Card Warp Change**

Effect:

Magician folds the card and it slowly changes to another. After the change you can give the card to a spectator as a souvenir.

You will make the gimmick in under a minute

Very easy to perform

Magician's fooler

### **Card Guillotine**

Effect:

Card guillotine is one of the most mysterious and interesting card tricks.

Mario Tarasini has brought it back to life.

This is a new method that, when applied, can make the trick even more interesting and can fool any magician.

The trick can also be performed with the spectators finger.

## **Thug Melt**

Effect:

Take two cards, and one of the cards will melt through another side by side...

No threads

No magnets

No glue

You will make the gimmick in a couple of seconds.
