### **A virtual coincidence with nothing but 5 cards!**

Virtual five cards match is a new solution to a powerful remote coincidence.

The spectator takes out any ace through five hand. He cuts the cards and mixes them in different ways. After all of the random mixing and shuffling and even though your spectator makes all the decisions the the cards in your hand match the spectator's cards perfectly.

This effect does not require any set up or gimmick.

Easy to do.

Can be done face to face or virtual.
