This is a totally innovative trick!

I think it is the best opener for a show!

A journey of a totally inexplicable silk!

The magician makes a tube with a sheet of newsprint, wrapping it in his wand. This tube is supported by an elastic band and is left in a glass for all to see. Then a silk is taken and made to disappear.

Blowing through one end of the tube, the silk flies and goes to the glass!

Magic that works and easy to do!
