

Micromisdirection by Giacomo Bertini - Video - DOWNLOAD

"Giacomo Bertini is a true original in the field of coin magic . Within the inner circle of coin magic, the work of Giacomo Bertini has been known and respected for years. The depth and breadth of his work, though, has not been recognized for what it is: a radical new system and theory of coin methodology, one that leads to a fresh paradigm in the art of magic with coins ."

- from the fantastic book by Stephen Minch, "Giacomo Bertini's System for Amazement".

From these pages, this is the second, of a series of new video tutorials. This is the first video tutorial on the "**Micromisdirection**", and you will find the basic and a practical application of this new theory, explained by Giacomo himself, so forget for a moment what you know about classical theory, and discover a different application in coinmagic and also in close-up magic.
