

Rising Up by Zazza The Magician - Video - DOWNLOAD

Rising Up is a totally quick and easy way to build a rising deck.

Really impromptu.

In fact, you only need a deck of cards!

You can always have this invisible gimmick in your deck ready for performance.

A freely chosen card truly placed in the middle of the deck inserted in a box controlled by the spectator, just a tap on the spectator's hand and the chosen card will appear above the others.
