VANISHING LIBERTY by Luis magic - Mixed Media - DOWNLOAD

MAKE THE STATUE OF LIBERTY VANISH as David Copperfield did in his famous special Tv show.

The biggest of all "great illusions" re thought for close up situations.

A magic tribute to NY with a stunning, visual finale.

EFFECT:

You lean two cardboards on a small Statue of Liberty model.

Whenever you'll decide, the cardboards will fall by themselves on your mat surface: Lady L has vanished!!!

HIGHLIGHTS:

- Gimmick easy to build in a few minutes
- Cardboards are graphically customizable (es: your name or logo on them)
- In the download you'll see an example of images on the cardboards which guide to the final vanish
- The routine is very easy to perform with EVERYTHING always UNDER THE PERFORMER'S CONTROL
