

Precise Premonition by David Jonathan - Video - DOWNLOAD

A Twist On The Premonition Plot With A Multiple Kicker Finale!

Precise Premonition draws inspiration from Eddie Joseph's staple Premonition effect, but packs in many new magical moments that crescendo with an incredible firework finale! Best of all, its super practical, very easy to perform and consistently delivers incredible reactions!

The Effect:

A spectator is given a RED deck to hold that contains your prediction. A BLUE deck is now shuffled and used to create both a playing card and a number. Let's say they settle on the number 10 and the QUEEN OF HEARTS. The spectator looks through the deck to retrieve their card, except for one thing.... it is NOT IN THE DECK! Only 51 cards are present! Where did it go!?

The RED deck is uncased and the cards are counted face down to the selected number (in this case 10). At that position is the ONLY BLUE CARD IN THE RED DECK! The card is turned over and its their missing card from the other deck! For the incredible finale, the entire red deck is now turned over to show that it is completely BLANK (and examinable!).

Precise Premonition uses a simple and elegant solution to deliver multiple powerful moments. Download now and instantly add this stunning effect to your repertoire!
