

## Noted by Jonny Ritchie - Video - DOWNLOAD

**Noted!** is Jonny Ritchie's debut release.

Perfect for your video calls and Zoom shows, **Noted**, is a great way to utilize your smart device to predict ANYTHING and create mental miracles.

When we say anything, we mean it. Once you have learnt the mechanics of Noted, all that limits you to performing miracles is your imagination. It is simple to use and once set up (within minutes) you are ready to go!

With with the instructional, there is included three, tried and tested routines with an explanation:

- The Jabberwocky
- The book test
- The easiest ACAAN in the world.

Jonny talks you through the minor details to ensure you get the best results.

The effect requires no special app and uses items you most likely have to hand. It is not limited to any operating system meaning that it is both Apple and Android friendly.

Although designed for the medium of video calling this can be done in real life too.
