

## **RING MY RING by Luis magic - Video - DOWNLOAD**

You give a spectator a bell to ring "in case of good magic".

In the moment you make your RING visually disappears from Your finger.

and it will be found Inside of THE BELL instead of its clapper!

A strong, visual routine where, at the end, the Spectator gives you back your ring.

### **EFFECT:**

You lend a bell to a spectator, saying to ring it in case of good magic (I hope they ring it a lot).

Your ring disappears from your fingers and is found in the bell, causing it to ring...You ask for your ring back.

### **HIGHLIGHTS:**

- It'll take five minutes to realize the gimmick (in case You want to use a gold wedding ring I suggest to ask a goldsmith shop to help You)

- A great impact routine for your audience... at the end you'll have your ring back from the audience and a fun interactive miracle.
