

Venom ACAAN by Viper Magic - Video - DOWNLOAD

The Venom ACAAN

You introduce a pack of cards that is not touched until the end of the trick.

The spectator selects a card from another pack, and yes, a completely free choice, no forces.

A number is then selected by the spectator. This is another free choice, no forces.

The magician then goes to deal down cards from the pack of cards he showed at the beginning of the trick.

Like real magic, at the spectator's number, is the spectator's card! You can do it with a blank deck too. That means, the same ACAAN effect, but with a blank deck of cards.

Pretty amazing right?

No memorization.

No special gimmicks.

Easy to do.

Practical!
