

THE HAREM DECK by Luis Magic - Video - DOWNLOAD

You show a playing card deck made up of all queens from different decks of cards. You explain that the deck is a Harem of Queens.

EFFECT:

The entire deck is made up of Queens except for one lonely Joker card. The Queens are placed into the card box and your spectator is allowed to insert the Joker anywhere that they like in the deck. The Joker is choosing his Queen!

The Joker is inserted into the deck anywhere at all, it is a free choice, but when the cards are taken out and spread on the table the card that lays beside the Joker is not a Queen at all but a Jack! The Joker is then turned into the a King and the King and Jack can now join the Queens for the evening.

This is a story based trick that you can customize to your own personality.
