Please Note - This trick is perfect for Zoom performances and social media, but you can also perform it live.

Effect:

The magician takes out a box of cards and explains that there is possibly an impostor "*Among Us*", well not technically among us, but in the box of cards. The magician asks the spectator to call out any card. The spectator chooses the 2 of Hearts. The spectator is then told to choose a number , and he chooses 18. The magician now takes out the cards from the box , shows that all the cards have completely normal backs, and gives them a cut. Now he very fairly starts dealing cards from the top and on the 18th position, is our impostor. That is 1 blue card, in a pack of all red cards. And not only this.. The blue card is none other than the spectator's selection, the 2 of Hearts. The magician then turns the whole deck face up, and boom! To the spectator's surprise, all the cards were blank. 2 of Hearts was an impostor. Download it today!
