"Simple and visual. I like it!"

- THINKING PARADOX

Many kinds of linking tricks are out there but almost every other card link effect uses your hand to cover the magical moment.

C-Link by Stefanus Alexander brings a new method, and new variations to a popular plot.

Show the card linking without any cover.

Everything happens directly in front of your spectators eyes.

It looks like the cards melt through each other. You can also unlink them without any cover.

Perfect for live performances and for social media.

- Very visual
- No black art
- Instant reset
- Easy to do
- Easy to make
