Star Control by Adil Magician - Video - DOWNLOAD

The ability to distribute the cards you want wherever you want.

With so much magic open to the world online, any strange mixing of cards in front of an audience may be called into question.

That's why **Star Control** was created.

While you make a simple mix in front of an suspecting audience, four cards are dealt one at a time and the 4 trump cards are distributed to the player you want!

Star Control relies on card counting, making even a magician unable to detect movement!

Examinable!
